Once your browser is open, click the gear at the top right to open the settings menu. Then, select safety and Delete Browsing History... Or, optionally you may simply press Ctrl+Shift+Delete to open the Delete Browsing History window.

Select Temporary Internet Files. You will also need to uncheck all of the other boxes, especially Preserve Favorites website data. This option makes the window also delete objects from websites in your Favorites folder, which is necessary to completely clear your cache.

Click the Delete button near the bottom of the window to perform the operations (i.e. clear your cache by deleting temporary files).

Your computer will work for a moment, and then the process will be complete. You’ve successfully cleared Internet Explorer 9’s Cache!
Once your browser is open, click the Tools menu. Or, optionally you may simply press Ctrl+Shift+Delete to open the Delete Browsing History window (and skip step 2)

Click on Delete Browsing History...

Select Temporary Internet Files.

Click the Delete button near the bottom of the window to delete your temporary files (i.e. clear)
If you want the browser to automatically clear the cache whenever you close it, click the Advanced tab. Click to check the box next to the Empty Temporary Internet Files folder when browser is closed option (in the section labeled Security). Click OK. This will delete everything except cookies.

Note: IE8 has a "feature" which retains some cookies even after you clear your cache if you do not UNCHECK the "Preserve Favorites Website Data." If you truly need to clear your cache, you will want to uncheck this!

Internet Explorer 7

Open IE 7 and click the Tools menu. Click the Delete Browsing History link at the top.
Under the Temporary Internet Files heading, click Delete files...

Click Yes when you see the prompt asking if you are sure you want to delete all temporary files.

Alternatively, clear your cache for just the current page you're visiting. Press and hold [Ctrl] on your keyboard, then Press [F5] or click on the Refresh button (square button on the toolbar with opposite-facing arrows).
Click the Firefox menu in the top left corner. Next, select the right arrow next to History >, and click Clear Recent History (or click on Tools then Clear Recent History if you don't have the Firefox Menu) Or, you can press Ctrl+Shift+Delete to open the recent history window.

Make sure 'Details' is expanded, then select Cache from the list. Uncheck everything else.
In the Time Range to Clear: drop down, select Everything.

Select Clear Now.

Your computer will work for a moment, and the process will be complete. You've successfully cleared Firefox's Cache!

Firefox 3.5 / 3.6

Click the Tools menu, then select Clear Recent History. Note: If you don't see the Tools menu, hold down the Alt key then press the T key to access Tools.

Choose the time range of cache you'd like to clear.
Click on Details and make sure Cache is checked.

Select Clear Now.

Firefox 1.5 / 2.0 / 3.0

Below is the full method, although it is possible to simply go to Tools, and select Clear Private Data. Go to Tools and select Options... (on Linux, go to Edit then Preferences).
<table>
<thead>
<tr>
<th>Firefox 1.0</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click the Tools menu and select Options (on Linux, go to Edit then Preferences).</td>
</tr>
<tr>
<td>Click the Privacy button and select the Cache tab.</td>
</tr>
<tr>
<td>Click the Clear Cache Now button.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Chrome v10 +</th>
</tr>
</thead>
<tbody>
<tr>
<td>Go to the Privacy tab and click the Settings button.</td>
</tr>
<tr>
<td>Make sure Cache is checked on the list of options to clear.</td>
</tr>
<tr>
<td>Return to the Options menu and click the Clear Now button.</td>
</tr>
</tbody>
</table>
Once your browser is open, select the Wren chion (the settings menu, located in the upper-right corner) then, Tools, and Clear Browsing Data.... You can also access the Delete Browsing History window by pressing Ctrl+Shift+Delete, or clicking on this link: [chrome://settings/clearBrowserData].

Select the Empty the cache check-box. Uncheck everything else to avoid deleting data unintentionally.

In the Obliterate the following items from: dropdown menu, select the beginning of time.
